## READY TO SERVE YOU

At all times with the choicest fresh and cured meats available.

Our stock has never been more complete in every line we carry.

**Champion Meat Market**

## Newlyweds Are Honored

On Friday evening October 25, a wedding reception was held at the home of Mr. and Mrs. F. Daub of Champion for Mr. and Mrs. Maxwell Groves (nee Annette Daub). The hostess was assisted by Mrs. L. M. Groves and Mrs. D. Ashmore. The house was very prettily decorated with pink and white streamers, gladiolas and carnations. Among those present were:

Mr. and Mrs. L. M. Groves, Mr. and Mrs. F. Wise, Mr. and Mrs. J. Groves, Mr. and Mrs. J. D. McDougall, Mr. and Mrs. Harold Matlock, Mr. and Mrs. W. W. Sloan of Queenstown, Mr. and Mrs. G. Burke of Queenstown, Mr. and Mrs. Joe Muckenham and Oscar of Calgary, Mr. Irvine Daub of Cochrane, Mr. and Mrs. J. Walker of Carmangay, Mr. and Mrs. Bond, Mr. and Mrs. Colwell, Mr. and Mrs. J. Bonath, Mr. and Mrs. L. Fath, Mr. A. Daultal, Mr. and Mrs. A. Becker, Mr. and Mrs. Chas Matlock, Mr. Harry Matlock, Mrs. B. McEae, Mr. and Mrs. Hummel, Mr. and Mrs. H. Anderson, Mr. Louis Groves, Mr. Martin Matlock, Miss Barbara Wise, Mr. Harry Matlock, Mr. and Mrs. E. Close, Mr. and Mrs. A. Ash, Mr. and Mrs. A. Ferguson, Mr. and Mrs. Hagg, Mr. Fred Smith, Mr. George Smith, Miss Helen Hinds, Mr. Alex McLaughlin, Mr. Don McLaughlin, Mr. Charles McDougall, Miss Ruth Fath, Mr. Don Bond, Mr. G. Daub, Mr. and Mrs. H. Higgins.

The guests of honor were the recipients of many useful and beautiful gifts. The guests were entertained with dancing and cards until twelve o'clock when a delightful lunch was served and all departed after wishing the happy couple joy and prosperity.

## Departing Members Are Honored

Mr. and Mrs. W. C. Hoskins were the guests of honor on Wednesday evening, when the O.E.S. entertained them previous to their departure for Vancouver. Cards were enjoyed, the winners being Mrs. H. Smith and J. McIntyre, with Mrs. W. Woodhill and G. E. Volney taking the consolation prizes. A splendid banquet was served by the lady hostesses, and was thoroughly appreciated. Mrs. Hoskins was presented with a handsome silver teapot, which was fittingly acknowledged by both Mr. and Mrs. Hoskins.

About 400 rams and 475 ewes of the Oxford, Shropshire, Suffolk, Hampshire and Rambouillet breeds, as well as some 40 grade ewes, will be offered for sale at the fall stock shows and sales to be held in Calgary, November 4th, 5th and 6th, as well as a number of swine and cattle. Judging will take place on the 4th; hogs, cattle and ewes will be sold on the 5th and rams on the 6th.

The new United States tariff bill is having a trying time of it between congress and senate. The day is past when moneyed interests are able to ride anything they wish through legislative chambers. Public opinion is very largely against this tariff bill and it looks as though it would be unrecognizable to its sponsors when it becomes law.

### Special Sunday Dinner

A special chicken dinner will be served in the Savoy Cafe on Sunday from 5.00 to 8.00 p.m. A special bill of fare will be presented to patrons. You are requested to give us a trial for this meal. Price \$1.00

## Obituary

Mrs. Mary Stevenson

The late Mrs. Mary Stevenson was born in Abercrombie, North Wales, on February 15th, 1840, her maiden name being Mary Edwards. She emigrated to the United States in 1870, where at Albion, Iowa, she was married to Robert Stevenson on June 4, 1870, who predeceased her by thirty-five years. To this union ten children were born, five boys and five girls, seven of whom survive her; viz: Mrs. M. G. Clever, Calgary; Mrs. D. R. Watkins and Mrs. R. J. Cowell, Champion; Mrs. Neil Rowley, Walter and George Stevenson, Albion, Iowa, and Mrs. Meade, Corey, Cal. There are 25 grandchildren and fifteen great grand children living.

The deceased had resided at Albion, Iowa, until about two years ago, when she came to Alberta, where she has since resided with her daughters. Her demise in her 81st year, after a long and eventful life, leaves many to mourn the passing of a woman of the class to whom posterity owes a big debt. The funeral took place from Armstrong's funeral home to the Calgary cemetery.

## Big Time Expected Ladies' Aid Bazaar

The Ladies' Aid bazaar on Nov. 16th promises to be more than the usual success achieved by this organization in past years. Donations for this event are exceeding all former years as is the material for the dinner. You can make no mistake in reserving the date for the annual bazaar.

## Warning Re Noxious Seeds

Every possible precaution will be taken by the Alberta Department of Agriculture to prevent the spread of noxious weeds from one section of the province to another under the arrangement recently reached whereby hay, straw and green-feed and feed cuts and barley will be shipped free of freight charges into those districts where additional feed will be required during the coming winter.

Any shipments of this kind, it is announced by Hon. George Hoadley, Minister of Agriculture, must be inspected before being loaded, by an official of the Department, and for this purpose two inspectors have been appointed. In the part of the province south of Red Deer inspection of all such shipments must be made by W. G. Lawrie, 325-21st Ave. West, Calgary, and in the northern part of the province inspections will be made by Frank Stevens, whose headquarters are at the Field Crops Branch, Department of Agriculture, Edmonton.

Farmers who contemplate selling hay or feed for shipment under the provisions of the freight tariff are advised that hay or feed cannot be loaded until the vendor has secured from one of these inspectors a certificate of its satisfactory freedom from noxious weeds, and any person who proposes to ship feed under the free freight arrangement would be well advised to communicate with the inspector for his district at the earliest possible date in order that such shipment (Continued on back page.)

## NOTES AND COMMENT.

The two outstanding events of the week were the collapse of stocks and the big tumble in wheat prices. Naturally the latter was felt more locally as considerable wheat was held on margin in this vicinity. That the drop in wheat was partly due to the New York situation there can be no doubt, but the wheat market itself was growing top heavy from lack of export demand. With export prices increasing wheat prices are working back to their old level.

There are still a number of people who consider practically unlimited license should prevail in regard to the celebration of Halloween, but these are growing less year by year, particularly if they have been subjected to the effects of their belief. There must be some better way of celebrating Halloween than by blocking the streets with implements and toppling over outbuildings to both the annoyance and financial loss of their owners. Modernization of hallowe'en celebrations is decidedly desirable from every point of view.

The twelve hours snowfall on Sunday, at times remarkable for the size of the flakes, and always heavy and wet, has done much to relieve any anxiety of reaching freeze up without sufficient moisture to germinate the grain sown in the spring. The snow thawed considerably while falling and the heat in the ground helped in this direction. Undoubtedly it will all be absorbed as it melts.

Clemence Vorotilov, Russian war commissar, says war must surely come between capitalism and the proletariat. Therefore Russia is engaged on a five-year program, which Vorotilov thinks, will make capitalism behave, or conquer it, if necessary. The proletariat, which means the mass of Russian workers, has, of course, nothing to say about war and peace. Their business is to cheer all official decisions. In that they are like the proletariat in other countries.—Arthur Brisbane.

The Dead Sea is thought by scientists to cover more wealth than might be found in any other like area in the world. Its deposits of potash, magnesium and bromine salts are declared to represent billions, and now a new group of authorities estimate that \$50,000,000,000 worth of gold could be recovered from the waters by the use of modern scientific methods. The Dead Sea may be the liveliest thing we have.—Los Angeles Times.

The building of gravelled roads in parts of the province has aroused a demand in many other quarters for this class of roads. Good roads are a fine

thing but there is room for doubt whether the building of automobile roads at too rapid a rate is good policy. Nearly all roads are good at the time marketing of farm produce occurs and it is scarcely necessary to have a gravelled road from every farm to the cities as everyone is getting to the cities just about as often as they ought to. Some one must do the farm work, and in these times when nearly every farm hand owns an auto, too good roads might easily lead to the necessary work being neglected and all hands go job riding.

Alberta is wasting 200,000,000 feet of natural gas daily in Turner Valley. The gas company which is supplying Lethbridge and Calgary pays 13 cents a thousand feet for a small amount of this. If it were all sold at 13 cents the waste gas would be worth \$20,000 a day. This is equal to the value of 1500 barrels of oil daily at 84 per barrel, far more than is being produced in that field. Some day Alberta is going to regret very deeply our \$20,000 a day waste of the present time.

## Tag Days And Campains

The public have and always will be asked to support campaigns either by subscriptions or tag days. All of these are worthy in the extreme and of necessity in our public life. There is one, however, which overshadows all these in our national life. Armistice Day will soon be upon us, which is a day imprinted in the minds of all of us, not as being one of "national" importance but of "world wide" importance. The extent to which this

day when it occurred was lauded by people of every nationality cannot be measured, and the relief to the pent up suffering of relatives anxiously concerned about the welfare of their own will never be forgotten.

We owe to Canada's 60,000 men who gave their lives a solemn tribute as Canadians and we should all bring this to attention once per year. November 11th is the day for this observance when the young nation of Canada will display its remembrance by wearing the Poppy.

Every Canadian or citizen in this glorious land of ours is asked to wear the Poppy which is emblematic of this tribute.

The Canadian Government is making these poppies in order to provide a means of employment for them, and the time they spend occupies their attention and helps relieve their suffering for a little while. Each poppy bears the Vetscraft stamp.

The Legion throughout Canada under the leadership of General Sir Arthur Currie G.C.M.G., K.C.B., is appealing to all citizens to remember the day.

Is there a citizen who will refrain from paying this respect to our dead soldiers? Her Excellency, Lady Willington is Patroness in Chief for all Canada. Other countries are observing this day in this manner,—let Canadians let Canadians show that they will not take second place in any country in the world in this observance.

The Mayor of every town in Alberta where no branch of the Legion exists has been made aware of this campaign with a request to form a central committee to organize. Any towns who require Poppies for this occasion can get them from the department by getting in touch with the provincial secretary of the Canadian Legion at Calgary.

## Lutheran Church Services

The Lutheran Church still preaches the Gospel of Christ and Him crucified. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, Oct. 27th, at 11:00 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends.

# Domination In Very Forefront Of Nations Adopting Aeroplane For Purposes of Business and Industry

An Eastern paper remarks that Canadian airmen of the Great Lakes are too much inclined to believe that, at the present stage of the national development, they represent the extreme of progress and that the west's claim to distinction lies more in practical matters than in actual achievement. Yet in one great, and the latest, side of that development, the east is mainly responsible for the current thoroughgoing conception of Canada's proper place in the field of aviation. In fact, many enlightened Easterners must have learned with unfeigned surprise that in the year 1928 more passengers were carried by airplane in Canada than was the case in the United States, and that this superiority also extended to the volume of freight transported. This rather astonishing piece of information was recently supplied by the New York Times, with the comment that, as the Dominion's flying record is largely established out of sight of reporters and camera men, only occasional flashes reveal the expansion that has placed Canada in the very forefront of the nations in the use of the aeroplane to the purposes of business and industry.

It is surprising, remarks the Times, to learn that Canada last year carried 74,689 passengers by plane, and 2,494,632 pounds of freight. Eastern writers, however, contributing only a comparatively minor portion to the business of the airways. The only regular passenger route in the East is between Montreal and Albany, New York, though air-mail routes are more numerous and are steadily being extended to link up isolated and outlying points with civilization. But Easterners are not, generally speaking, developing air-mindedness. Most of the 74,689 passengers mentioned by the Times being carried in areas where railways are not available and where the only method of transportation is a dog team in winter or a canoe in summer.

On the other hand, the New York paper notes, miners and prospectors have been quick to recognize the advantages of air-flight, and in northern Ontario and northern Manitoba freely use airplanes, thus saving weeks, or even months, when journeying to remote or inaccessible regions. Governments, too, are finding the airplane an invaluable assistant in the survey and plotting of the bleak and inhospitable regions of the sub-Arctic, and in the long few parts of the country to remain that have not, at least, been observed. Forest patrolling is now, of course, an old story, but the airplane as a means of fire protection and fire prevention is each year becoming of greater importance. In short, the development of the northern belt of the Dominion has been immensely expedited by the utilization of airplanes. One Winnipeg company is estimated to have last year carried over 10,000 passengers, accelerating incalculably the exploring of mineral areas and knowledge of topographical conditions.

## Alberta Co-Operative Association

### Membership In Lethbridge Organization Is Increasing Rapidly

At the close of its ninth year of business, the Southern Alberta Co-operative Association, Lethbridge, had 1,632 members in place of the 40 provincial members of 1923. Five hundred new members came in last year when business aggregating \$870,345 was put through. Produce marketed took 600 cars while stock handled included 25,700 bags and 6,000 sheep.

### Vikings Ran Smelters

The Vikings ran smelters. The remains of a chieftain's house about 1,600 years old have been uncovered on the island of Gotland. The building was about 185 feet long. Lamps of burned iron were found with knives and arrowheads.

"Have you heard that Millers are having a divorce?"

"Why?"

"For love. They are afraid their love may not last." Muskoka, Vienna.

W. N. U. 1909

## High Destiny For Canada

### Domination Must Be Go-Between For Britain and United States

The invitation to Canada to participate in the coming disarmament conference is an indication of Canada's strategic position, its growing wealth and importance, and the part this Dominion must play in world affairs. Today it holds what might be called the balance of power between the United States and Great Britain. It is not too much to say that if permanently peaceful and mutually beneficial relations are to continue to exist between these two countries they will exist more easily if Canada carries out the role of interpreter.

In attempting to great a task this country is faced with no small measure of danger. The danger comes both from within and without. From within is the discord of party strife which might attempt to divide paralyzing policies. From without is the danger from the parties in Great Britain and the United States, who might set narrow national interests above the realm of square dealing.

Walking carefully and guarding against these dangers there is no doubt that a particularly high destiny is forecast for this Dominion. Regina Daily Post.

## Cannot Forget Their Names

### Members Of Negro Family Named For Year Of Their Birth

The Joneses have no trouble forgetting their age. The first grandchild of William Jones, and his wife, negroes, has appeared at the residence of 1807 July Jones near Kingston, N.C. Children in the family have been named for the year of their birth. The new addition will be christened either 1929 July Jones or 1929 Jones, the parents said.

Nineteen Hundred Jones is now a resident of Baltimore, while the whereabouts of 1908 November Jones is not clear.

## Minerals Are Necessary

### Very Important Ingredient In Food For Live Stock

The study of the various mineral ingredients of foods in the nutritive processes of the animal is now receiving widespread attention. It used to be thought that the amount of mineral needed in a ration was so small that they need not be bothered about, but our more recent research in this subject has shown how important this factor is, both to the health and well-being of our stock, especially since the greatly increased use of artificial feeding stuffs.

## Aerial Forest Patrols

Aerial patrols of the forests in Saskatchewan in the summer of 1928 covered approximately eighteen million acres of country almost inaccessible in summer except by canoe. Sixty-one fires were detected by the aircraft.

New Zealand has over 120,000 cars apart from motorcycle and commercial vehicles, or one car for eleven persons, the same ratio as in Canada.

## Boy Scout Activities

### Christmas Toy Repair Shops For Sending Out Toys To The Children Of New Soldiers

Last Christmas the Boy Scouts of Canada had the rare privilege of playing Santa Claus to many thousands of children, little New Canadians, in Saskatchewan, toy shops were opened in nine centres where toys were repaired and distributed by the Scout Association to some hundreds of children both of new settlers and of veterans.

Something of what this meant in happiness to the children themselves and to their parents, was suggested by many touchingly appreciative letters. In many cases the package, with something for each child, came almost literally "out of the sky," like old Saint Nick himself, and turned a day of dreared loneliness with nothing for the kiddies—into a day of laughter and happiness.

This year, in addition to the remembrance of local needy children, it is hoped to again make happy at least 5,000 New Canadian kiddies on the farms. Already a list of 800 new arrivals this year on prairie farms, has been received.

Some difficulty has been experienced in regard to covering the cost of mailing the parcels. The following device has been suggested, that parcels for certain families be made up and addressed with the amount of postage required marked, and displayed in a window along with a toy display, and a placard reading:

Santa Claus' Helper Need Help Step inside and help Santa Claus by paying the postage on a parcel going to the kiddies of a family of new settlers spending their first Christmas on a Canadian farm in the west. The parcels were prepared by the Boy Scouts.

## Makes Success As Farmer

### Wins Cup For Best Farm In Province Of Alberta

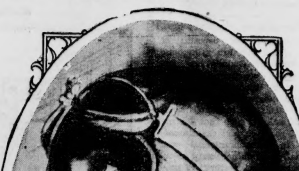

The farm of Gustaf Elger, of Wetaskiwin, that won the trophy offered by the Edmonton Board of Trade, for the best field of wheat in the northern half of the province, as well as the cup donated by the Alberta Government for the best farm in Alberta, has yielded 66 bushels to the acre, on a 100 acre field, and graded No. 1 hard. The seed used had been developed by Dr. Seager Wheeler, of Rosthern, Sask. Elger is another farmer who came to Canada with no capital at all and has made a striking success as a farmer.

## From the Back Seat

Turn to the right, John! More to the right! . . . Now a little bit to the left! Too far—I told you so . . . Back—that's right—back a little more . . . Turn it John! That's it! . . . No! Will you ever get it? . . . Gently . . . Ah, now we can sit back in comfort. . . . Leave it there John. I know if I told you how to do it, you'd get station KOA.

The lichen, which appears to be one plant, is really two: one being a fungus which provides support and protection for the other, which manufactures the food for both.

## AMERICAN WOMAN AVIATOR

It is very chic in dull black silk crepe with collar and cuffs in egg-shell shade. Black crepe satin is effective with the hip yoke and flaring skirt sections, collar and cuffs out of the dull surface of the crepe, and makes a very versatile daytime dress for the woman of limited budget. Hunter's green cotton crepe with beige contrast, printed sheer velvet in raspberry red tones, Copenhagen blue silk crepe and Lucerne blue sheer velvet charming selections. Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

May Halzlip, one of America's foremost women fliers, who will pilot an Eagle biplane in 1929 national air tour for Robert B. Ford reliability trophy. It is expected some 45 or 50 aeroplanes will take-off in flight, which will cover Canada and the United States.

# Canada Now Ranks Fifth In Total Trade of World and Leads In Exports of Wheat

## A Growing Industry

### Egg Production In Canada Shows Consistent Increase

Elucidating and instructive in various ways is a comparison of the quantity and value of the farm eggs produced in Canada last calendar year and the corresponding figure for each of the seven years preceding. The result reveals clearly the consistent and unbroken progress made by the egg industry in the Dominion during that period. Intelligent and unremitting attention to improving the laying ability of the hen has brought a constant increase in the average production per unit until today it is nearly 22 per cent. greater than the average eight years ago. Within that period the number of egg-producing hens on Canadian farms increased by over 32 per cent, the number of eggs by approximately 60 per cent, and their total value by well over 100 per cent.

The progress made recently in egg production has been very noticeable. Imports of shell eggs in 1928 were about the equal of export, the Dominion for the first time produced a considerable surplus producing sufficient eggs to meet the country's domestic requirements. The number of eggs in Canada has increased very largely. The Dominion being the heaviest egg consumer per capita in the world. But production is rapidly coming to the fore of this situation, and the outlook in this regard is distinctly bright. In the early months of 1929 imports of eggs into Canada have been, on the whole, smaller than in the corresponding months of 1928. Thus it is to be noted also that exports are also correspondingly smaller.

## No Doubt He Would

### Woman Tells Station Porter How To Answer Questions

When does the next train for Leeds leave?" inquired the beer-loving woman at the station. "You'll have to wait five hours, madam," a porter told her. "I don't think so." "Perhaps you know better than I do, madam?" "Yes, my man, and perhaps you know better than I do whether I am going to travel by the train myself or whether I am merely making the inquiry on behalf of a cousin who has been spending the week-end with me and who is at the moment picking her things, so that she could not inquire herself, but sent me to do it for her. Perhaps you'll give a civil answer next time a respectable widow asks you a question, instead of trying to show off what you know?" "Yes, madam."

## Government Sheep Moved

### Two Thousand Brought To Lethbridge From Crow's Nest Mountain

The loading of nearly 2,000 sheep, which during the summer have been pastured in the vicinity of Crow's Nest mountain, was completed lately, and they were transported from Bentinck to Lethbridge Experimental Farm via C.P.R. Arthur Newman, assistant superintendent in charge of livestock, stated that the sheep have thrived on the splendid grazing which the mountain ranges afford. Geo. Walker, of Lethbridge, was in charge of the big flock during the summer and was assisted by H. M. Dingsdale.

## The Quebec Bridge

The Quebec bridge, world-famous structure spanning the River St. Lawrence, built primarily to carry the tracks of the Canadian National Railways trans-continental line, now enters a new sphere of usefulness through the opening of the bridge to highway traffic. Automobiles and other vehicular traffic are allowed to pass over in daylight hours only, pending completion of the work on approaches. The conversion of the bridge to a highway was carried out by the Government of the province of Quebec and is costing in the neighbourhood of \$50,000.

## Movie Tons Of Prize Cattle

Movie tone pictures are to be taken of prize-winning Alberta cattle. Mr. E. Ward Jones has announced that the Fathe News people have arranged to take pictures of some of the Holsteins from the C.P.R. Supply Farm at Strathmore, which have won prizes at many exhibitions throughout the West. What is very funny Mr. Jones is how he is going to make them "bawl" for their admirers.

Canada ranks high in production and international trade among the leading commercial nations of the world. In production she leads the world in output of newsprint, nickel, asbestos and cobalt; she occupies second place in the production of wheat and third place in the output of lead and gold.

In export-trade she leads the world in export of wheat, newsprint, nickel, and asbestos; she occupies second place in exports of wheat flour, and third place in exports of wool pulp.

According to most recent comparative statistics available for the calendar year 1928, Canada occupies fifth position in aggregate trade as also in imports and exports among the leading commercial nations of the world. In production she leads the world; second place in export and total trade per capita; third place in favorable trade balance and fourth place in favorable trade balance per capita.

These striking facts are revealed in the thirty-seventh annual report of the department of trade and commerce compiled by F. C. T. Offora, deputy minister.

The report, a well-timed treatise towards increasing trade with foreign countries rather than through the United States or the "Empire" as formerly, increased percentage of exports of fully or semi-manufactured goods or the increased utilization of Canadian ports for both incoming and outgoing trade.

Mainly responsible for this trend in Canada's trade is the substantial increase in the output of steamship lines operating from Canadian ports to South America, Australia, New Zealand, the Fiji Islands, West and South Africa, also to Newfoundland and Canadian coastal routes. New trade treaties are being concluded with many of the world have also benefited Canada's foreign trade.

The expenditure on mail subsidies and steamship subventions during the past fiscal year totalled \$1,028,375, an increase of \$181,782 over the year 1927-28. The service to South and West Africa carried over eleven million dollars worth of Canadian goods to ports in those countries during the past fiscal year. During the first seven months that the service to South America was in operation, nearly twenty thousand tons of Canadian cargo was carried. Since then the trade on this route has greatly increased.

To keep abreast of the ever-changing tariff regulations of commercial nations of the world, the department has established a foreign tariffs division and instructed exporters and importers directories.

## Bring Out British Boys

### Saskatchewan Government Has Decided To Increase Quota Next Year

Saskatchewan has decided to increase its quota of British boys under the Government aid scheme by which the Imperial, Federal and Provincial Governments, each bear one-third of the cost, according to Hon. J. F. Bryant, who pointed out that during the past year 100 boys have been absorbed under that scheme and that the coming year the quota would be doubled.

## Troubles Of An Editor

The late Archibald Temple was a life-long teetotaler. At a meeting in the country he once had occasion to say "that he had tried all his life to induce men to drink in moderation and had failed utterly." The next morning the local paper reported him as having said: "He had tried all his life to drink in moderation and had failed utterly."

A necklace of bear claws, believed to have been worn by Chief Sitting Bull, has been received by the San Diego Museum.

Wife: "What did the doctor say after he had examined you?" Husband: "That there was not much wrong with me, except that I had nearly gotten beating." —En Reale Half Timma, Gothenburg.

W. N. U. 1909

## How To Keep Young

Eat Less, Sleep More, Drink Water, and Laugh

An aged New York man, who has led a busy life, and a good one to boot, offered the following recipe on how to live long.

"When you get old, eat half as much, sleep twice as much, drink three times as much water, and laugh four times as much."

The advice is no doubt good. It recognizes the psychological factor as well as the material. Laughter is one of the most valuable emotions of humanity. It has a physical effect on the body by stimulating certain abdominal muscles, and it has a normal reaction which is a tonic to one's outlook on life.

People growing old, who have not the physical capacity for enjoyment and recreation that they once had are inclined to sit down and dwell on the past and to contemplate the future somewhat morbidly. The way to keep young while growing old is to read light or amusing literature and to associate with people who have cheerful natures.

As for the other items of advice, it would be well if all young or middle-aged people ate less than they do, slept a bit more and drank more water.

Watch your eating, drinking and sleeping, and you will continue young until you are quite old.

## WORLD HAPPENINGS BRIEFLY TOLD

The Royal Canadian Mounted Police have the right to enforce the Manitoba liquor laws. Magistrate Rydward decided in the case of Alfred Charrand, at the Pra.

John M. Allen, Brandon, and Lucian McNol and James Carruthers, Winnipeg, have been named Manitoba members of the Canadian Farm Loans Board.

While his plane dashed to earth in a tail spin, Lieutenant John Seligman, army pilot attached to Mitchell Field, dropped more than 2,000 feet with a parachute and escaped with only a wrenched ankle.

Losses suffered by the government of British Columbia on the settlement scheme launched since the war will total \$5,279,000, according to an estimate prepared by special auditors who have been making an intensive investigation of the province's finances.

Canadian surgeons who accepted the fellowship in the American College of Surgeons, including James E. Mason, Stettin, Alberta; Frank P. Colson, Kamloops; Cyril Stanley Williams, Trail; George F. Bawden, Moose Jaw, and Samuel Harcourt-Corgan, Lacombe, Saskatchewan.

A noted figure in Canadian military circles died at Quebec in the person of Major-General Alfred O. Pages, former officer in command of the Canadian training camp at Valcartier, Quebec. At the close of the Great War, Major-General Pages retired on pension.

Of the candidates examined by the radio branch of the Department of Marine and Fisheries, during the month of September, those successful in obtaining commercial certificates of proficiency in radio-telegraphy, included B. W. P. C. Maylor, Vancouver, and L. H. Perna, Regina.

From the Arctic to Cuba by canoe—that is the plan of Charles Plamich and his two youngsters, Inez, 9, and Anthony, 8. More than six months ago, the family of three went north from The Pas, Man., and since then they have journeyed 3,500 miles by dog sled and canoe.

Direct diplomatic relations between Canada and Japan were established when Hon. Isenaka Tokugawa presented his credentials at Government House, and at the Department of External Affairs. In a brief ceremony the letters of credence were read and the Japanese minister welcomed at Ottawa.

Has Further Understanding  
Dr. Nicholas Murray Butler, president of the Carnegie Endowment for International Peace, told the Institute of International Law, at New York, that "Premier MacDonald and President Hoover, in their recent conference did much more toward furthering an understanding between their nations than could have been done in 40 years of diplomatic procedure."

## Begin Building Operations

Building operation in Regina continues uninterrupted. Permits up to the end of September amounted to about \$9,000,000, which is more than double the figure for the similar nine month period of last year.

The title of Rabbi is accorded Jewish scholars of eminence as well as to the ministry.

## British Industries Fair

Canada To Be Well Represented At Fair To Be Held February 17th to 28th

The Deputy British Trade Commissioner announced that the twentieth annual British Industries Fair will be held next year from February 17th to 28th, inclusive, at London and Birmingham, England. The two sections are complementary to one another, the whole forming the British Industries Fair.

The London section of the fair, which is organized by the British Government Department of Overseas Trade, will be held for the first time in its new home at Olympia. Canadian buyers who have visited the fair in the past will remember that for the last few years it has been held at the White City, in London. Owing to the growth of the fair it has been found that the White City buildings are not now suitable. It was therefore decided to move the fair to Olympia, which is being especially enlarged for the purpose by the addition of a four-story building. The new building will not actually be completed until the 1931 fair, but two years, in addition to the existing building, will be ready for occupation by February next. By means of bridging the galleries and other construction work, there will be ready for the forthcoming fair a large two-story building which is believed to be the first of its kind and size in the United Kingdom. Up to the 12th of August last, 800 United Kingdom manufacturers had applied for space at Olympia. Although no definite numbers are available, it is believed that the applications for space at Birmingham have been made by approximately 500 firms.

The Empire Marketing Board, which is responsible for the supplies of His Majesty's Government, will again stage a representative exhibit of food products of the Mother Country, the Dominion and Colonies, and also of the raw materials of the Empire. This exhibit will be given a prominent position on the ground floor of the existing main hall at Olympia. In addition to this there will be a separate exhibit by the Canadian Government, and it is anticipated there will be a representative Canadian Manufacturers' section.

Many Canadian buyers are expected to visit this great national fair. The most prominent British firms in all lines of manufacture will be exhibitors. The exhibits are grouped by trades, so that a buyer can go to any section in which he is interested and inspect without wandering over the whole of the fair building to discover any particular article or firm.

Canadian buyers who visit the fair each year have on numerous occasions drawn attention to the time which they have saved by a visit to the fair. By such a visit they avoid the necessity of having to travel over the United Kingdom to purchase from the various manufacturers in whose goods they are interested. The schedule of exhibits in both the London and Birmingham sections covers practically every article of United Kingdom manufacture. Further information can be obtained from the British Trade Commissioner, 700, Royal Bank Building, Winnipeg, who will be glad to issue invitations on behalf of the British Government to business men who contemplate making the trip.

Research Work Necessary  
The investigation of deposits of natural sodium sulphate (Glauber's salt), in Western Canada, by the Mines Branch, Department of Mines, has proven up tonnage of hydrous sodium and magnesium sulphates in excess of 100,000,000 tons. The nature of the salts is such that a large amount of research and experimental work in semi-commercial and commercial plants is necessary before the device proper methods of harvesting and drying the salts.

Control Of The Corn Borer  
The European corn borer is being brought under control in Ontario, and the grain corn industry is being re-established in the province. The corn borer was first discovered in Canada in 1920. During 1921, 1922, and 1923, it had spread to such an extent that some corn fields had 400,000 borers to the acre. Today, systematic control campaigns, under the Department of Agriculture, have resulted in the re-establishment of the crop.

Alaska can produce 1,000,000 cords of pulpwood annually which can be converted into 1,000,000 tons of newsprint or more than one-fourth of the present yearly consumption of the United States.

"What I want to see," said the girl who didn't receive even honorable mention at the beauty contest, "is a group photograph of the judges' wives."

## REMEMBER YOUR OWN CHILDHOOD Give Cod-Liver Oil Pleasant Way SCOTT'S EMULSION

## Extra Rich Milk Is Used In Famous Bohemian Cake

Practical foreign recipes are always of interest to the housewife anxious to vary the menu. This molasses cake is decidedly different, and yet is easily made if you have extra rich milk at hand. Borden's St. Charles is particularly satisfactory, because it is twice as rich as ordinary milk, taking the place of cream in a cake of this kind. It never varies in quality, consequently you can count on uniform results in every kind of cooking.

## Bohemian Molasses Cake

- 1/2 cup butter.
- 2 cups sugar.
- 1 cup molasses.
- 1 cup black coffee.
- 2 eggs.
- 1 teaspoon baking soda.
- 1/2 cup Borden's St. Charles Milk.
- 2 cups flour.
- 1 teaspoon ginger.
- 1/2 cup cloves.
- Cinnamon.
- Allspice.
- 1/2 lb. raisins.

Cream together half a cup of butter, a cup of sugar, a cup of molasses, half a cup of black coffee, two yolks of eggs, and a teaspoon of baking soda, dissolved in one-half cup St. Charles Evaporated Milk. Then add two cups of flour, a teaspoon of ginger, a dash of cloves, cinnamon and allspice, also half a pound of raisins, if desired. Bake rather slowly.

When done and cool, cover with icing as follows: Beat the two whites, pour into them, beating constantly, syrup made by boiling one cup of sugar with a fourth of a cup of Borden's St. Charles Milk.

## Collecting Christmas Seals

Within the last few years stamp collectors, not content with the increasing number of new postage stamp issues, have added another item, Christmas seals, to their lists. At the same time on the Christmas seal sale has been increasing rapidly in value, although age does not always determine their worth.

## Saskatoon Power Plant

Construction work on the new power plant at Saskatoon, being built by the Provincial Government, at a cost of \$2,000,000, is going forward rapidly, and it is expected to be finished by November 1931. This new plant is said to be the most modern in the Prairie Provinces.

## SUNDAY SCHOOL LESSON

NOVEMBER 3

## RESPECT FOR RIGHTFUL AUTHORITY

Golden Text: "Let every soul be in subjection to the higher powers."—Romans 13:1.

Lesson: Mark 12:13-17; Romans 13:1; 1 Peter 2:12-17.

Devotional Reading: Matthew 5:13-20.

## Explanations and Comments

Jesus Teaches Respect For Law. Mark 12:13-17.—The Pharisees had resolved to compass the death of Jesus. How could they accomplish this? They decided to attempt to ensnare Him in His talk, so that they could report something He said as treason, and thus secure from the Roman Governor His death sentence. Craftily keeping themselves in the background, they sent certain Pharisees and Herodians to Him with that object in view. The Herodians were the court party, a small class who represented the Roman rule, but favored the kind of the house of Herod and meant to do good terms with the government at any cost. This alliance of Pharisees and Herodians, who hated each other, shows how great was their common hatred of Jesus.

"Teacher," the deputation began, "we know that Thou art true, and earnest not for any one; for Thou receivest tribute from the people, and of a truth teachest the way of God." By this preamble they meant that the Pharisees were not to be regarded as a dangerous one to answer, but that He was not afraid of consequences.

Jesus became the question His enemies wished Him to answer. "Is it lawful to give tribute unto Caesar, or not? Shall we give, or shall we not give?" Caesar was the title given to the Roman emperor; the reigning emperor at this time was Tiberius. The tribute was the yearly tax levied on individuals by the Roman Government. Whatever answer Jesus might give would give hostile Pharisees, self, the questioners thought: for if He said that it was lawful to give tribute, the people would count Him as a rebel.

"Bring me a denarius, that I may see it," Jesus commanded. Strict Jews would not carry a denarius, for they held that the emperor's image upon it savored of idolatry, but one was easily obtained from the money changers. When it was brought to Him Jesus asked, "Whose is the image and superscription?" "Caesar's," was the answer. "Render unto Caesar the things that are Caesar's," Jesus quickly added, "And unto God the things that are God's." He was charging the duties imposed upon them by human conditions, men must never forget the duties imposed upon them by their relationship to God.

And they marvelled greatly at Him, Jesus said, "Whose is the image and superscription?" "Caesar's," was the answer. "Render unto Caesar the things that are Caesar's," Jesus quickly added, "And unto God the things that are God's." He was charging the duties imposed upon them by human conditions, men must never forget the duties imposed upon them by their relationship to God.

## Pearl Reef Favourite At Banff

One of the favorite resorts of visitors to Banff National Park, is the Pearl Reef, in the Bow River, brought down as a tiny cusp from near Herchel Island, in the Canadian Arctic, by an officer of the Royal Canadian Mounted Police.

## Magnesia Best for Your Indigestion

Most people who suffer, either occasionally or chronically, from indigestion, have tried many different remedies, and without success. Indigestion, stomach troubles, and flatulence, are the result of indigestion. Those who use Magnesia will find that it is the best remedy for indigestion. It is a powerful laxative, and it is the only one that is so gentle. It is the only one that is so effective. It is the only one that is so safe. It is the only one that is so pleasant. It is the only one that is so reliable. It is the only one that is so successful.

## Test Was Successful

Flying Boat Made Hour Flight With 100 People

D.O.-X, huge 12-engined flying boat, which was launched at Alynhalet, Switzerland, last July, has made an amazing one-hour flight with a human crew of 100. The first time in the history of aviation that so many persons have been carried into the air on any conveyance. The machine flew for 100 miles, and landed perfectly. The D.O.-X carried 100 passengers and a crew of 10. The flying boat, which may be used for trans-Atlantic crossing for the purpose of trying out her capacities, was built in the greatest secrecy. She was designed to carry 100 persons normally, but has accommodation for 100 if necessary. Her 12 engines can develop a total of 6,000 horsepower. She is the only flying boat in the world which can take off and land individually without affecting its neighbors.

The D.O.-X measures 150 feet from tip to tip. Its wings are 10 feet thick and 150 feet from wing tip to wing tip. Six great turret project from each wing and each turret is equipped with two engines of 500 horsepower. The turrets are manned by mechanics who walk around the deck, while another is on the wings from one turret to another.

When the D.O.-X was launched, last July, she weighed 31 tons. Her weight was also able to get into the air with the greatest ease after take-off run of only 500 yards. Other trials were similarly successful.

One of the features of the plane is that the machine can fly with only eight motors in use.

Dr. Dornier built the plane at Alynhalet, in the Swiss side of the German-Swiss frontier, because of the limitations on German aircraft imposed by the treaty of Versailles.

## The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, it is the sun's most important ally. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of health and hygiene the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary glass completely excludes the passage of Ultra-Violet rays, so that by using glass we are actually excluding these vital health-giving rays. The invention of WINDOLITE has completely satisfied the scientific world. Experiments have conclusively proved that it is a most efficient substitute for glass. It freely admits the Ultra-Violet rays, and that it has the most beneficial effect on the growth and vitality of plants and animals. It is the only glass that is so effective on the well-being of cattle, enabled for the first time to graze in the full light of day instead of in the darkness of their stalls.

Indeed, the discovery of WINDOLITE has during the last few years completely revolutionized gardening, given a new stimulus to poultry raising, and has greatly improved the health of cattle and is now being used in domestic and household requirements.

## STOCK EXCHANGE STAMPEDE WORST PANIC SINCE 1914

New York.—The remarkable ease of a public appearance in stock exchange which has swept over the country during the past five years, came to a climax in the most terrifying stampede of selling ever experienced on the New York stock exchange and other leading securities markets.

Not since the war panic which resulted in closing the exchange for 17 weeks in 1914, has Wall Street seen such a dark and trying day, and never in financial history have securities markets been thrown into such a tumult. It appeared for a time that the stock markets would be unable to face the situation and that trading would have to be suspended, but the leading exchanges over the crisis, although a few floor traders collapsed and had to be aided from the trading rooms.

The situation became so grave that a hurried meeting of leading bankers was called at the office of J. P. Morgan and Company, and a reassuring statement issued from the conference by Thomas W. Lamont, one of the Morgan partners, finally checked the sickening drop of stock prices and saved the market from complete impasse.

Scores of important stocks tumbled from \$10 to \$70 a share, and the vanishing at the rate of tens of millions of dollars, when the bankers' statement prompted large orders were being placed in the market, to cover their commitments, and prices of many issues rebounded.

The stocks of six leading corporations at their low levels of the day on the New York stock exchange showed a loss in total value of nearly \$1,000,000,000. The market value of the total outstanding common stock of General Motors, a loss of approximately \$350,000,000, that of American Telephone and Telegraph Company \$275,000,000; Radio Corporation of America \$100,000,000; U.S. Steel \$78,000,000; Standard Oil of New Jersey \$68,000,000; General Electric \$64,000,000.

Total sales on the stock exchange reached the amazing figure of 12,894,000 shares, surpassing by more than 50 per cent. the previous record of 8,246,710 reached in March 29. The ticker quotation service fell hours after hours in the previous record, and were unable to get quotations from the floor proceeded blindly, save at intervals when a few stocks were sent out through the bond market ticker.

Closing prices presented a picture of havoc among quoted values, hundreds of shares selling at new low levels for the year, and from \$20 to more than \$100 below the record prices reached in recent months. Nevertheless the price level at the time of the closing gong was found to be substantially above the bottom levels of the day, approximately half of the losses of the startlingly early hours of the day having been regained.

## Attempts Life Of Italian Crown Prince

Assault Said He Intended To Fire Into Air

Brussels, Belgium.—A shot was fired at Crown Prince Umberto, of Italy, as he had a wreath laid to the tomb of Belgium's unknown soldier. The prince, uninjured, ignored the incident, but police arrested the assailant immediately. Infuriated, the crown stormed the police station, demanding that the man be lynched. The prince's assailant was a Belgian police officer, an Italian named Enrico Doria, and was born in 1904. He said he had intended to shoot the prince as a mark of protest. He arrived from France and was in possession of identification papers from that country.

The attempt was attributed in Rome to resentment of anti-Fascist in Brussels against condemnation of execution recently at Pola, of Vladimir Gorko, Jugoslavian "terrorist," who fired on a line of voters last election day.

**Will Release Doubtfuls**  
Ottawa.—Thirty Doubtfuls now in jail in Saskatchewan, are to be released on ticket of leave. Hon. Lucien Cannon, solicitor-general, announced on request of Hon. M. J. McLeod, attorney-general of Saskatchewan.

The Chinese Free Masons of the World in their convention at San Francisco pledged \$100,000 for a peace treaty in Shanghai.

## Urges Free Speech

Best Way To Deal With Communists

Says Miss McNeill  
Toronto, Ont.—Miss Agnes McNeill, Canada's only woman member of parliament, in an interview referring to trouble between the local and Communists, said:

"My opinion of the way to deal with the matter is to let the Communists have free speech. In the words of some one who spoke about Hyde Park, in England, Queens Park in all respects is a real safety valve for Toronto exuberant Communists. The police have been making themselves the laughing stock of all thinking people. It is the silliest business I have heard for some time."

## Renews Arts Competition

Eight Prizes Are Again Offered By Lord Willington

Montreal.—Lord Willington, Governor-General of Canada, has informed Sir Arthur Currie, principal of McGill University, by letter of the renewal of the Willington arts competition, inaugurated last year. Eight prizes in all are offered, with a view of furthering and encouraging cultivation of art and literature. Four prizes of \$100 each are offered for composition in music, two in literature of \$100 each, one in painting of \$100, and one prize in sculpture of \$200.

## Receive Severe Sentence

Chinese Dealers, In Narcotics, Given

Vancouver, B.C.—Traffickers in narcotics received severe sentences at the close of the fall session, when the British Columbia court sentenced Henry Chow, 35-year-old Chinese, to seven years in the penitentiary, a fine of \$1,000 and 10 lashes. Chow was convicted of having cocaine and morphine in his possession.

Nip Gar, also 35-year-old Chinese, was sentenced to seven years imprisonment and a fine of \$1,000.

## Will Investigate Tariff

Advisory Board To Discuss Applying To Cotton Goods

Ottawa.—The reference from the Minister of Finance to the tariff advisory board to investigate the fifty per cent. British cotton provision in the preferential tariff applied on cotton goods from Britain coming to Canada, will open here on November 10. The board, headed by W. H. McLeod, chairman of the board, following a conference lasting all forenoon between members of the board and representatives of the British high commission's office.

## League Receives Notes

Geneva.—The secretariat of the League of Nations has received from the Canadian Government for registration, on November 2, copies of the notes exchanged August 2, 1924, by Canada and the United States with reference to an agreement for the exemption of shipping companies from income tax.

## Less Unemployment In Britain

Montreal.—While unemployment is still a serious question in Great Britain, it is not so manifest as one might expect, according to A. T. Weldon, vice-president of the Canadian National Railways who has just returned from a trip abroad. The country as a whole, has the appearance of growing prosperity.

## Will Be Guest Of Honor

North Battleford, Sask.—Premier J. M. Anderson will be the guest of honor at the annual rally sponsored by the North Battleford branch of the United Farmers of Canada, which will be held here Tuesday, November 12. More than 2,000 people attended the function last year when farmers from all parts of the district came in for the day's entertainment.

## Relief Fund For Miners

London, England.—The fund for relief of distress among the families of unemployed coal miners has been replenished for the coming year. One hundred grants have already been allocated and altogether about \$2,500,000 will be spent. The distribution of relief will take the form entirely of clothing.

## Sailing November Thirtieth

Tokio.—The Japanese delegation to the London naval conference in late January, will sail from here for Seattle on November 30, proceeding from that city to Washington for a visit with President Hoover and Secretary Stimson before going to London.

Munich, Germany, was founded by the monks.

## To Take Over Branch Lines

Statement Made That C.N.R. Will Operate Country To Sherrill Gordon Branch

Winnipeg.—Announcement is made that the branch line from Cranberry to the Sherrill-Gordon mine on the Lake will be taken over by the Canadian National Railways at the end of October.

It is expected that when the branch is taken over there will be a tri-weekly passenger service to and from The Pas and a daily freight service. H. MacLean, president of the Dominion Construction Company, stated that work on the branch had been completed well ahead of schedule.

Local mining men believe that the taking over of the line by the C.N.R. will end great impetus to mining in Northern Manitoba. Work on many promising prospects have been held up, they state, because of the cost of taking out of taking machinery into the Cold Lake mining area by winter trails.

## Believes Draft Satisfactory

Manitoba Cabinet Discusses Agreement For Return Of Reserves

Winnipeg.—Tentative draft agreement for transfer of natural resources will probably be satisfactory to Manitoba, believes Hon. Charles Stewart, Minister of the Interior. The Dominion minister conferred with members of the Manitoba cabinet on the first occasion for informal discussion of the draft.

With certain modifications suggested at the conference, the draft is considered to meet with the approval of the government. Every member of the cabinet was present, with the exception of Premier John Bracken, who is absent in the Old Country. Application of the Manitoba Power Commission for extended pulpwood limits is to be considered at a conference to be held on Mr. Stewart's return from the west.

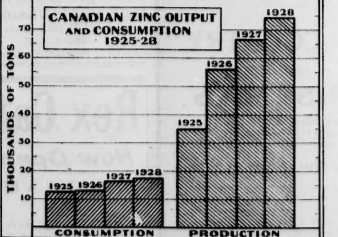

## ITALIAN MINISTER TO CANADA MAY BE APPOINTED

Ottawa.—The appointment of an Italian minister to Canada has been considered in cable dispatches received here, that Agostino Ferrante Di Ruffano, Italian consul-general here, would soon be transferred to Philadelphia and that he will be succeeded in Ottawa by Count Delino Rogeri Di Villanova, consul and senior assistant at the Italian embassy in London, England.

The dispatches forecasting that Italy will ultimately follow the example of the United States, France and Japan by appointing a minister to the Dominion, has created considerable interest in government circles. Some time ago there was a similar report with respect to Germany. The Department of External Affairs would make no official comment with regard to either report. However, there is a general impression that Canada's diplomatic scene abroad will be extended. Germany and Italy appear as likely countries with which Canada would next exchange ministers.

Marquis Ferrante, in an interview, said that he knew nothing of reports emanating from London that his government would appoint a minister to Canada. "It is quite possible," he said, "but it may not be for some time yet."

## ZINC PRODUCTION IN CANADA

Zinc is one of the metals of which Canada now produces a heavy exportable surplus, the last few years having witnessed a rapid increase in the spread between domestic production and consumption. According to figures published by the American Bureau of Metal Statistics, the Canadian output of zinc last year amounted to about four times the domestic consumption. British Columbia accounts for much the greater part, with Quebec as the other main source. The output of zinc in Canada has converted zinc from a minor to a highly important item in Canadian mineral production, the value of the output last year exceeding ten million dollars.

## GEOLOGIST RETURNS FROM NORTH

Pear for the safety of Geoffrey Gilbert, above, geologist, with the Dominion Explorers, have been delayed by the news of his arrival at Fort Simpson. He was to have been picked up by the MacAlpine party and for a time it was not known whether he had been forced down with them or was awaiting their arrival. "Tunch" Dickins brought him and three others out during an unsuccessful fight to locate the MacAlpine party.

He was to have been picked up by the MacAlpine party and for a time it was not known whether he had been forced down with them or was awaiting their arrival. "Tunch" Dickins brought him and three others out during an unsuccessful fight to locate the MacAlpine party.

## Spirit Of The West

Nothing To Worry About, Newspaperman Tells Easterners

Toronto.—"The spirit of the west is steady and hopeful," said Thos. Miller, of the Moose Jaw Times, here for a meeting of the directors of the Canadian Press. Mr. Miller is a well-known western newspaper man and was a charter member of the Western Associated Press when it started in Winnipeg, 22 years ago. Also he farms himself on a considerable scale, being interested in three sections, nearly 2,000 acres, under cultivation in Saskatchewan.

"There is not a bad economic crop for the west," he said, "with 25,000,000 bushels of high-grade wheat. There was a great saving in operating cost, because we did not import a single harrower, farmers garnering the crop with their own labor, the harrower now widely in use being in part responsible. Of course there are cases of individual hardship, some farmers not even saving for the west," he said, "but the situation is being taken care of by municipal and farmers' organizations, and it is unlikely it will be necessary to ask Ottawa for financial help as was the case some years ago."

"We expect to get higher prices, and the sentiment of the west is bullish for the west," he said, "the wheat is being sold at bargain rates, proving lying in the fact that farmers not in the pool are also holding wheat for a rising market."

"Looking to next year, there were good rains east of Regina a fortnight ago, but not in the Moose Jaw district. The astonishing thing this season has been the remarkable showing on summerfallow needed to spring wheat. The astonishing thing this season has been the remarkable showing on summerfallow needed to spring wheat. The astonishing thing this season has been the remarkable showing on summerfallow needed to spring wheat."

"Our prairie soil is not like your soil here, because when we get rain it goes into the ground and does not wash away. It is a remarkably open season, and we may get good rains yet, but if we do not there will be snow and frost seepage in the spring and good rains in May and June will put the crop on its feet. But it is too early to talk about the 1929 crop. Tell people in the east there is nothing to worry about in the prairie west."

## Plans For Convention

Dominion Breeders' Association To Meet In Regina Next Month

Regina.—Preliminary arrangements for the convention of the Dominion Breeders' Association, to be held in Regina, on March 24 to 28, 1930, were given attention by the Saskatchewan Livestock Board, at a recent meeting. A committee to take charge of the convention was appointed. It consists of C. M. Larmouth, J. G. Robertson, D. T. Elderkin, and R. A. Wright.

Those Canadian breeders' associations meet in Toronto customarily having met in the west previously only once. That was in Calgary a number of years ago. They are meeting in Regina, in 1930, on the invitation of the Saskatchewan Livestock Breeders and the Regina Board of Trade.

## New Claimant For Earlrold

Third Man Is Disputing Claim Of Alberta Rancher

London, England.—The dispute over the right to the earldom of Egmout and extensive estates near Hampshire, in Hampshire, has been complicated by the appearance of a third claimant, namely, R. Power, retired officer of the Hampshire, Lancashire, and claims to be a descendant of Hon. Philip Telford Perceval, a brother of the fifth earl, Frederick Perceval, of Priddle, Alberta, is at present disputing the earldom with James William Perceval, 60-year-old baker of North London. The Alberta man was believed to be her presumptive daughter the late earl's life and on the death of the earl came to England and for a brief time occupied the estate.

## Freight Rates Hearing

Board Of Railway Commissioners To Consider Cases East And West

Ottawa.—Two important hearings before the board of Railway Commissioners on the government of the railways, shippers will likely take place this fall, when the request of the maritimes for lower grain rates over the transcontinental railway and that of Alberta in connection with coal rates will be presented.

It is said to have yet been fixed for these hearings, and as yet no formal application has been received from the maritime provinces. It is expected, however, that these will be set within the next day or so.

## Have No Political Rights

Mexico City.—The Department of Interior has ruled women have no political rights in Mexico. Women cannot vote in the presidential election November 17. Its ruling was in answer to a query of women's clubs at the state of Coahuila.

## GRAIN STORAGE CRISIS BELIEVED TO BE NOW OVER

Winnipeg.—The grain storage crisis has passed. Having been at its peak, it is now being met by the country's grain elevators. The country's grain elevators are now being met by the country's grain elevators. The country's grain elevators are now being met by the country's grain elevators.

Attentive observers of the western storage situation regarded these omens with relief. They looked back on a car-ratoning move during the first half of October by both the Canadian National and the Canadian Pacific railways, they remembered the early months of the year when the first harvest and the first grain of the year were being moved to the west and that the yards would be filled with grain. Just 60,000,000 bushels of wheat alone to be hauled to the country elevators by prairie farmers. It was a task of enormous proportions.

And aggregate country storage on October 23—after a drop for the second successive day following a record rise for week—stood at 86,640,000 bushels. The 11,000 still have capacity for more than 72,000,000 bushels, allowing range for 12,000,000 bushels of undrained grain in addition to the wheat.

With grain deliveries falling off at present it is considered only a matter of time before movement to the lake-head will show a corresponding drop. Handlers of the grain are desirous of having no more grain at hand in terminal elevators after the lake shipping season closes in November. The winter is necessary to accommodate the Metropolitan. Then comes the grain-raiser tour in lands on which the sun runs first.

## MANITOBA MAY SOON CONTROL OWN RESOURCES

Ottawa.—Rapid progress has been made in regard to the natural resources agreement between the Dominion and the province of Manitoba in the last few days.

It is understood that from cabinet sources that the Dominion has appointed O. M. Biggar, K.C., formerly the chief electrical officer of the Dominion, to act with A. B. Hudson, K.C., representing the province of Manitoba, in the actual drafting of the agreement which will be submitted to parliament and to the provincial legislature at the next session of these bodies.

Prior to the appointment of these two lawyers to act as a committee, it had been stated that the provincial legislature was in a position to act. It is now stated that this was not the case. The officials of the interior department apparently had drawn up a rough outline of an agreement, but had not attempted to cast it in final form. Mr. Hudson and Mr. Biggar, it is understood, are attending lengthy conferences in Ottawa last week and this week, and while neither of them would discuss the matter, there is good ground for the belief that very rapid progress was made, and that except for a few points which must be referred to the two governments for decision, the agreement is rapidly taking on its final form.

It is believed that the special points involve in the matter to discover, Cabinet ministers, in touch with progress being made, that the agreement is rapidly taking on its final form. It is believed that the special points involve in the matter to discover, Cabinet ministers, in touch with progress being made, that the agreement is rapidly taking on its final form.

## Succeeds Dean Ling

Saskatoon, Dec. 15.—The head of the English Department of the University of Saskatchewan has been appointed to the position of Dean of the province, succeeding Dean G. H. Ling, also of the University, Premier T. M. Anderson announced. The appointment is effective immediately.

## Indian Wins Pleading Match

Ottawa.—A 17-year-old Indian boy showed modern agriculturists how to do their stuff recently, and won first prize in the international plowing contest against 369 opponents. George Barlow was the winner. He owns a farm which he bought himself at Midland.

## Will Meet As Friends

London, England.—Two war opponents in German East Africa, General von Lettow-Vorbeck and General Smuts, will meet at the dining of British and South African soldiers, sailors and nurses here on December 2. Smuts will propose a toast to his former opponent.

## Kite Flying Record

Lancaster, Pa.—The world's record for sustained kite flying was broken at New Holland by John Garman and Treman Dism, both 15, who held the "Spirit of New Holland," had remained in the air 52 hours and 29 minutes.

## Sails To New Fields

Gall-Curt After a Big Season To Enter the Open

Regina.—Madame Gall-Curt will sail at The Armouries, Regina, on Monday, for a month and more ago she sailed to a new field, almost the first one on the globe that her rare voice and personality have not already reached. The diva's tour of the cities of Japan and China, with concerts also at Manila, in the Philippines, starts in February and ends in early summer.

For a number of years letters have been coming to Messrs. Evans and Sons, proprietors of Madame Gall-Curt, insisting that the diva be spared by America long enough to tour the Orient. It was even the same, this long and positive insistence, before the diva made her tour of the British Isles, and later made a still more extended singing journey to Australia and New Zealand.

This season again starting in early October, the diva will be seen in the same, this long and positive insistence, before the diva made her tour of the British Isles, and later made a still more extended singing journey to Australia and New Zealand.

## Chew and Grow Thin

You know that certain foods turnish body energy without adding uncomfortable fat.

Sugar is one of these foods, surprising needed energy in concentrated form.

WIGLEY'S gives you sugar and flavor. These ingredients dissolve in your mouth.

What pleasant way of taking sugar?

## The Singing Fool

By HUBERT DAIL  
Copyright, 1921, Warner Bros. Pictures, Inc.

SYNOPSIS  
Al Stone, singing waiter at Blackie Joe's New York night club wins fame as a composer of popular songs. He marries Molly Wright, a blind singer, and makes her famous. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly shops with John Perry, Al's best friend, taking the baby. For a week there is no trace of Al. Al, completely broken by the blow, visits his partner Billy Clime at the Club Bombo, and declares he must sell out. He is through with Broadway. Just then Al learns from a newspaper article that Molly is at a New York hotel, preparing to sail for France that afternoon. He rushes to the phone.

CHAPTER XIX.  
"No," said Molly to the maid, "you go on packing—I'll answer the door." She picked up the receiver to hear Al's voice.

"Molly, is this you? Is it true you're sailing today?"

Molly's eyes grew cold as ice as a look of intense irritation crossed her face. She turned to Perry, putting her hand over the transmitter, and whispered, "It's Al!"

Perry started, then Molly answered in a low voice.

"Yes, it's true. I decided to sail today."

The full force of her cold determination was conveyed to Al in those words. But his voice came vibrating back against her ear.

"Please, Molly, you must let me see Junior before he goes. That's all I ask—you won't refuse that?"

Again Molly signaled quickly to Perry, pointing to Junior. The racketeer jumped up—so Al was trying to spoil their game! Perry made a quick gesture of disapproval and Molly turned back to the phone.

"There's hardly time," she said. "We're leaving shortly."

Then it seemed to her that Al's voice hardened a little.

"The boat sails at six. Molly—that gives you time. Remember you've taken Junior from me—and you know what he means to me! He's the only thing I have left to live for. I'll be with him only a few moments—you must grant me that!"

Al waited in an agony of suspense, while Molly did some quick thinking. She knew Al could make trouble for her if he wanted to do it. She didn't think he would, but if she refused this last request he might suddenly turn up toward her, she decided to concede him. Besides, for a wonder, she suddenly felt just a little sorry for him. After all, he had been an awfully good sport during the three years of their marriage, and he'd adored Junior.

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard salina for 50 years among physicians everywhere. One spoonful will neutralize the excess of acid in your system. It is the right way, the quick, pleasant and efficient way to kill the excess acid. Your stomach becomes sweet, the pain de-

As she became aware of Perry's agitated figure; he was pacing up and down in front of her, pleading for her to refuse. But she turned to him and said in low firm tones.

"We must do this for him, John. It won't hurt us. And he's been so decent to me."

Perry made a reluctant gesture of acquiescence.

"Do as you like. But you can't afford to have him come here."

"No," said Molly, "he's turned back to the phone. 'I'll have Junior at the 90th Street entrance to the Park in half an hour!'"

As Al heard her crisp good-bys his face was illuminated with joy at the prospect of seeing his son. It would only be a few moments, but it was something—to hold Junior close once more and hear his baby voice.

Al glanced at his watch, then remembered Billy Clime, who was waiting mutely nearby.

"She consents, Billy! I'm to see Junior in half an hour! Now I must hurry along!"

Clime wrung his hand and Al picked up his hat and coat.

"We'll go over these accounts later," called Clime as Al hurried away, but Al gave only a hurried wave of the hand in agreement. His thoughts were concentrated on the meeting with his son.

Clime looked after him, shaking his head sadly. It seemed to him that the joyful and complete collapse of Al Stone was imminent all because of Molly.

"If I were in Al's place," thought Billy, "I'd certainly try to nab that woman at the boat and get the child back. But no, he won't do it. He thinks how it might put a stigma on the baby. And I think he loves Molly too much, even now, to do it."

The night club owner gave a sigh, and at his desk, and began to go over the accounts of the Club Bombo.

Al boarded a taxi and reached the 90th Street entrance ten minutes later. He still had a twenty minute wait, but he wanted to be at the spot ahead of time for this, the most important appointment of his life. He paced nervously up and down, peering at every limousine that passed. Then, as so often happened when there is so much at stake, imaginative and imaginary fears began to possess him.

What if Molly had lied to him, what if she were stringing him along and even now was hurrying with Junior toward the boat? But Junior, when his father had become so intense that he thought he couldn't endure it a moment longer. Molly's blue Rolls-Royce approached, came to a stop and the door swung open. Molly wasn't in it; a strange nursemaid stepped out, leading Junior by the hand.

Al rushed forward to clasp his boy in his arms.

As Junior saw Al approaching his little arms opened wide. Then he felt himself caught and lifted high, with his face against his father's cheek. This was just like him, when his daddy came in at dinner time, to rush into the nursery first thing and embrace him. Yet it was different. This time the little child felt it. His daddy was silent for a long moment as he pressed Junior close to him.

"No," said Junior, "he thought he was crying. No, no, no. Al, he held him at arm's length and whispered, with radiant face:

"It's wonderful to see you again. Did you miss daddy, Junior?"

Junior nodded. "Awful much. I asked nanner where you was. I asked her all the time."

Again the quick clasping of the little warm body in his heavy blue overcoat. Then Al carried Junior toward one of the benches that stood to conciliate him. Besides, for a wonder, she suddenly felt just a little sorry for him. After all, he had been an awfully good sport during the three years of their marriage, and he'd adored Junior.

Al waited in an agony of suspense, while Molly did some quick thinking. She knew Al could make trouble for her if he wanted to do it. She didn't think he would, but if she refused this last request he might suddenly turn up toward her, she decided to concede him. Besides, for a wonder, she suddenly felt just a little sorry for him. to himself, out of earshot of the nurse-maid. There she was pacing up and down beside the car, keeping a sharp eye on Junior and his father.

"She's been told to watch me. I told I might steal him," thought Al.

How pink Junior's cheeks were and how lowly his curls, escaping in profusion from under his funny little Breton cap. He sat with his tiny, dirty legs in leather leggings, spread far apart, studying his father's expression, as if seeking the answer to some question that was bothering his baby mind. Yes, there was something about Junior, a sudden gravity that convinced Al he knew vaguely that all was not well with the Stone family. It was just a feeling with Junior and he had no words that really expressed it, but he said soberly:

"Daddy, I've missed you lots."

"Yes, I have. I want you to go with nanner and see the doctor."

Al turned his face away quickly, as if he were studying intently something far down the street. He didn't want Junior to see his expression of extreme unhappiness, and for a moment he could not speak. But as he gained control of himself, he said:

"Do you, Junior? So I do. You know how much daddy longs to go with you."

"Why can't you go, then?"

Again the sudden starting down the street and the quick return of daddy's warm, loving eyes.

"Because, Junior—well, it's something you wouldn't understand. You'll know some day. . . . But you'll never forget daddy, you'll never forget that daddy loves you every moment and thinks of you and sings to you."

"Never," said Junior, with the certitude of a grown person and a solemn wag of his head. Then he asked:

"Do you feel bad, daddy?"

Al stiffened his quivering lip and managed to summon a smile.

(To Be Continued.)

Many children die from the assaults of worms, and the first care of a mother should be to get their infants free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but also kill a healthy medicine and a remedy for many of the ailments that afflict children, making them and endangering their lives.

Makes Study Of Indian Languages

Findings Indian of Northern Canada Have Special Tunes To Navajos

"Believe it or not," but there is a definite language connection between the Hare Indians of Chipewyan and the Navajo Indians of Arizona.

At least this is the considered opinion of Dr. F. K. L. graduate of the University of Chicago, and an expert in the genetic art of comparative philology—this latter subject being the study of various languages in reference to one another.

Incidentally, there is a touch of the international in the fact that Dr. L., of Chicago's persuasion, should be studying Indian languages in Canada for an American university, but there is nothing particularly remarkable in this, since the Chinese have for decades been considered among the best students of languages.

Dr. L., this year of the language of the Hare Indians of the north, including an intensive study of the various dialects. Al last of the camped with the tribes in and around Fort Chipewyan and Fort Good Hope, and though he may be keenly interested in the Hare Indian language, he hasn't seen anything to rouse his admiration of the Hare Indian as such.

Advocates Washable Suits

Suits which can be taken off and washed when dirty are advocated for men by Professor Leonard Hill.

"It would be a valuable reform if men took to washable outer garments," he said in a presidential address to the conference of the Laundry Importers' Association.

"Woman has reduced her clothing—all washable in a night," he said, "and the man while man continues to over-clothe himself with three or four times that weight."

Water glass is made by heating sand and sodium carbonate together.

Minard's Liniment relieves stiffness.

Alberta Telephone System More than 2,800 miles of new lines were laid by the Alberta Government's telephone system this year.

## Restoring the Dead To Life

Australian Scientist Exhibits Remarkable Revival At Medical Congress

An Australian scientist has exhibited a device before the Sydney Medical Congress which has restored persons apparently dead. Curiously enough, it is a needle which stimulates the heart muscles with electricity.

Whether that will help lead to the solution of life in terms of electricity remains to be seen.

Death, science now teaches us, is an accident to life. Body cells, it has been shown, can be kept alive indefinitely. Again the electricity par-

ticularly, Radio researches have led to a development where the action of nerves can be registered. With that approach, electricity, it is only a matter of time till their energy can be computed in mathematical terms.

That if results are indicated, the research continues into the dispenser of this energy which means life; into the "power house" relations of the digestive function, the metabolic processes, the heart, brain, glands and spinal nerve bases. Specialists in these functions have made amazing discoveries. To correlate these discoveries may lead to something more amazing.

Life, we used to be taught is God's secret. But God has no secrets. Our whole conception of Deity is in terms of revelation. Man already knows the spots of life has some relation to the celestial, tremendous electronic energy. He may not attain immortality, but he has an excellent chance of broadening into a more glorious realization of life already given him.—Vancouver Sun.

Life, we used to be taught is God's secret. But God has no secrets. Our whole conception of Deity is in terms of revelation. Man already knows the spots of life has some relation to the celestial, tremendous electronic energy. He may not attain immortality, but he has an excellent chance of broadening into a more glorious realization of life already given him.—Vancouver Sun.

Anglicizing Foreign Names

Many Lost Their Dignity and Became Quite Commonplace.

Foreign names of musicians and composers always seem to be somewhat imposing and sonorous. When they are Anglicized they appear to lose much of their dignity, and become quite commonplace.

Thus, if results are indicated, the research continues into the dispenser of this energy which means life; into the "power house" relations of the digestive function, the metabolic processes, the heart, brain, glands and spinal nerve bases. Specialists in these functions have made amazing discoveries. To correlate these discoveries may lead to something more amazing.

Life, we used to be taught is God's secret. But God has no secrets. Our whole conception of Deity is in terms of revelation. Man already knows the spots of life has some relation to the celestial, tremendous electronic energy. He may not attain immortality, but he has an excellent chance of broadening into a more glorious realization of life already given him.—Vancouver Sun.

## CHAMPION CHATTER

VOL. 2

Thursday, October 31, 1929

No. 37

Published in the interests of the People of Champion and Farmers of this vicinity.  
GEO. L. DEPUÉ, Editor.

## EDITORIAL

"Oh—what a strange looking cow," said the sweet young thing from Boston. "But why doesn't it have any horns?"

"Well, you see," replied the farmer, "some cows are born without horns and never have any; others shed theirs and still others we depose, while still other breeds aren't supposed to have horns at all. There are a lot of reasons why some cows don't have horns, but the big reason why that cow hasn't horns is because she isn't a cow at all. She's a horse."

P. Holm and family made a trip to Shelby Mont. to call on one of Champion's outstanding poets, J. Rosenberger.

The 1930 Nash line of cars include some of the most outstanding features in the automobile industry, such as automatic chassis lubricators, automatic thermosealed controlled radiator shutters and twin ignition. Streamlined bodies which are as durable as they are beautiful. Come in and let us tell you about this line of fine cars.

Maud Muller, as she raked the hay—  
Were a whole lot more than the gals today.

The thifty McCormick Deering Engine can be mounted on a truck for convenient haulage from one farm power job to another. You can keep it busy and ease yourself a lot of tireless work.

E. Williamson has purchased a new Chevrolet car. Ernie is as tickled as a small boy with a new red wagon.

In posching "ages get

your boiling water to whirling rapidly before dropping in the eggs. If you will do this the poached egg will be round and compact, not stringy or fragmentary.

Win, Penn Motor Oils "Still the Best."

We still maintain that the boys from out East know their stuff, congratulations—Mary and Kathleen.

"Where did you get the black eye?"  
"That's a 'bridge lamp' I tramped my partner's ace."

Although the weather is bad underfoot every one seems agreed that the moisture so derived is O. K.

## For Sale

Extra good milk cow. Will freshen in a few days. Apply to T. Sison, phone 887, Champion. 10

ever, the moisture was favorable, and no doubt those carrying stocks will welcome the change in weather also.

## WARNING

(Continued from front page)  
ments may not be delayed for lack of inspection.

It may be pointed out that in addition to the area originally outlined in 'which the free-freight tariff will apply, the following lines have also been included: Irricana to Corrieh, Nightingale to Norfolk, Granger to Langdon, Bassano to Dalmaced, Gleichen to Langdon and Lomond to Arrowood.

The regulations as originally drafted applied to baled hay and straw, feed oats, threshed corn in the sheaf, and grain screenings. Feed barley has since been added to the list of feeds which may be shipped into the designated area under the arrangement whereby half cost of such shipments is borne by the railway company, and half by the Alberta government.

## LOCAL AND GENERAL

Starting Nov. 1st, Brenda at 10c a loaf.—Joplings.

Married—On Saturday, Oct. 26, Miss Catherine Hartung to Adam Smith.

Mr. and Mrs. R. C. Crane were in town on Wednesday and Thursday.

Married—On Wednesday, Oct. 30th, by Rev. Naron, Miss Mary Leback to Jacob Hartung.

Kathleen Gottschburg entertained a number of young folks Thursday at a Halloween party.

W. M. Isaacson's sale on Wednesday was fairly successful despite rather poor weather and bad roads.

G. E. Voisey motored into Calgary Friday. The barn that was destroyed by fire has been rebuilt on his farm.

Mr. Barbara McRae left on Tuesday night for her home in Portland, Oregon, after spending three months here.

Max Nickle adjourned his auction sale of farm effects until Wednesday, Nov. 6th, owing to the big snowstorm.

Jos. Hicks, barrister, of Barons, will be at L. J. Adams' office every Tuesday and Friday where he may be consulted.

Mrs. J. F. Harper, who has spent the past three months in this vicinity, left for her home in Calgary on Wednesday.

W. C. Hoskins' sale of furniture and household effects on Thursday was well patronized and good prices were realized for the offerings.

Dr. and Mrs. Heal and B. M. Roberts were among those who visited Lethbridge to take in Hammy Dumpty, presented by an English company.

Miss Helen Bastin is ill with typhoid fever in St. Michael's hospital, Lethbridge, having contracted the disease while nursing a patient in the hospital.

Mr. and Mrs. W. C. Hoskins leave with the children on Saturday for Calgary and Vancouver. They have been entertained during the past two weeks at many social functions.

K. R. McLean R. O., of Anderson & McLean, Sight Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, November 22 at the Drug Store.

Rubbers, overshoes and heavier underwear are all in demand these days. The weather changes with such startling rapidity it is difficult to keep up with it in the way of equipment. How-

Miss Alice Ulfsten returned to the Clarendon Agricultural school this week for the ensuing term. A party of young folks gave her a surprise party on Sunday evening.

Miss Rother, of Michel, is visiting with Mr. and Mrs. Sanderson.

The Guess Ranch, in charge of Mr. and Mrs. Royal Ruggles, are entertaining a number of young people on Friday evening.

H. Cooper will be a delegate to Regina from Champion for the U. G. G. annual meeting on Nov. 13th and 14th.

The Catholic Women's League will hold their annual bazaar on Wednesday, Nov. 30. A special feature will be a drawing for a bedroom set and a hand embroidered bed spread, dresser scarf and curtains, all to match. The hours will be from 3 to 6 in the community hall.

A big Swede working in a shipyard shouted to a boy helper to bring him a peever. The boy started out for the tool shed, but being doubtful as to the nature of the tool he was going after, he turned back to ask the Swede just what it was. The husky blond worker was disgusted to see the boy coming back empty handed.

"Der he goes, coming back!" he grumbled. "Next time I send a dumb fool after something I go myself!"

A little boy who was very much puzzled over the theory of evolution, questioned his mother thus:

"Mother, am I descended from a monkey?"

"I don't know," the mother replied. "I never knew your father's people."

Featured in the November issue of Rod and Gun and Canadian Silver Fox News, Canada's national outdoor life magazine, which is just to hand, are some splendid and seasonable yarns of hunting in various parts of the Dominion. The noted western, A. Bryan Williams, recently reappointed Chief Game Warden of British Columbia returns to the pages of the magazine commencing another of his popular series of hunting experiences. His article, however, is merely one of many dealing with all angles of outdoor life and fishing and hunting interests, while the silver fox department is an extensive section filled with timely articles regarding the industry. Rod and Gun and Canadian Silver Fox News is published monthly by W. J. Taylor, Limited, Woodstock Ont.

Only 47 Shopping Days until Christmas.

Oh-Boy

We try to make buying pleasant

We know you will trade where you get the best service and the best values. Therefore we try to keep only the best of every thing and make good at the fairest possible price.

Of course, we have to have a profit, but we always try to stick to these quality fundamentals that mean a saving to our customers.

Take Canadian Milk for example. It is a reputation for quality. It tastes creamy, it looks creamy, it is creamy, and it is economical too. We have it, together with many other food specialties.

The most economical way to buy foodstuffs is to go shopping yourself. Come here and let us help you pick and choose wisely.

## Dealing With Confidence

Farmers, both shareholders and non-shareholders, deal with confidence with this farmers' Company.

They know the experience, resources, organization and equipment enable this Farmers' Company to give to farmers the best of service and treatment.
